

WORLD'S FIRST Smart Bottle that Displays your Water Intake

Sipwise started with a simple thought: most of us forget to drink enough water. Born out of the innovation ecosystem of IIT Bombay, the idea was never just to create another bottle but to build something that genuinely improves daily habits. That's how Sipwise became a smart bottle that gently reminds you to drink water and stay hydrated throughout the day.

By blending thoughtful technology with simple design, Sipwise makes hydration effortless. At its core, the brand also promotes mindful living, encouraging reusable products and helping reduce dependence on single-use plastic.

Developed at
IIT Bombay
